Summary

CTO and engineering leader with 15+ years across consumer mobile, platform, q-commerce, eCommerce, fintech, banking, and startup product work. Strongest where product ambition, architecture, data, and team design need to move together.

I build high-agency product engineering teams that can ship reliably without losing technical depth. I lead through clear ownership, strong technical judgment, and enough hands-on engineering context to keep decisions grounded.

Selected Scope

- CTO scope: software, design, and data for Żabka Jush and Delio.
- Managed through Team Leaders and Tech Leaders, including 4 teams with ~25 mobile developers at MODIVO.
- Mobile products across 19 markets, with Backend-For-Frontend responsibility and close product, business, marketing, and design collaboration.
- Built mobile capability from 2 to 25+ developers at DXC, including client-facing technical leadership and pre-sales.
- Led remote and distributed teams across Poland, Ukraine, and Austria.
- Shipped or led products with 200k+ active users, 5M+ banking reach, and 100k-user launch spikes.

Experience

Chief Technology Officer — Lite e-Commerce

Feb 2025 – Present · Warsaw

Leading software, design, and data for Żabka Jush and Delio. Responsible for engineering direction, product delivery, team design, and building systems that can keep shipping under real operational pressure.

Engineering Manager — MODIVO SA

May 2022 – Dec 2024

Managed mobile-related teams in a fast-growing eCommerce group. Responsible for MODIVO and eObuwie apps across 19 markets, the Backend-For-Frontend layer supporting them, and cooperation with product, business, and platform teams.

- Coordinated 4 teams with ~25 mobile developers.
- Managed through Team Leaders and Tech Leaders, keeping ownership close to the teams.
- Worked closely with product, business, marketing, design, and platform teams.
- Helped move mobile development from outsourcing toward in-house delivery.

Mobile Technology Leader — MODIVO SA

Nov 2021 – May 2022

Set mobile engineering direction during a fast-growth phase. Focused on architecture, team practices, delivery standards, and scaling mobile development across brands.

Mobile Technology Leader — BlueSoft

Oct 2020 – Oct 2021 · Warsaw

Led mobile technology and the Android team for Raiffeisen Ukraine. Also supported other mobile initiatives inside BlueSoft, helping teams choose architecture, tooling, and delivery practices.

- Worked with 4 feature teams and ~14 senior developers.
- Led distributed remote work across Poland, Ukraine, and Austria.
- Used Jetpack Compose, SwiftUI, shared modules, and design-system work.

Technology Business Development Manager — DXC Technology

Feb 2019 – Sep 2020 · Warsaw

Worked across technology ownership, software management, architecture, and client-facing business development.

- Technology Product Owner / Software Manager / Architect for eDirham G3 in the United Arab Emirates, based on BLIK/OTP flows.
- Supported IKO modularization for a 5M+ client banking app.
- Worked directly with clients in technical discovery, delivery steering, and pre-sales.
- Helped build mobile capability from 2 to 25+ developers.

Android Team Lead (Raiffeisen) — BlueSoft

Jul 2017 – Jan 2019 · Warsaw

Led a six-person Android team building a new banking application on a modern mobile stack. Supported the previous Mobilny Portfel app while preparing the new version and coordinating the merge path with the BNP mobile team.

- Delivered the new banking app in 7 months.
- Introduced Kotlin, DI, and multi-module architecture in banking.

CEO & Team Lead — Startups (Brand24, Yawn, Icelytics, 12Hours)

Jun 2015 – Jun 2017 · Warsaw / Toronto

Built and led early-stage product work across mobile apps, analytics, and consumer products.

- **Brand24** — Team lead and Android developer for a new Brand24 mobile app built from scratch.
- **Yawn** — CEO; built the team, managed delivery, shaped product ideas, and selected the technology stack.
- **Icelytics** — CEO; built a mobile analytics product focused on network performance, cache behavior, and cost optimization.
- **12Hours.io** — CEO; led early product and technical direction.

Software Engineer — Polidea

Jul 2014 – Apr 2015 · Warsaw

Professional software engineering in a mobile-focused software house, building Android products for clients. Started regular public speaking and Android education work during this period.

Android Developer — BrandCare

Jul 2013 – Oct 2013 · Warsaw

Early commercial Android development work, including Banamo, a privacy-focused safer community app.

Education

Master's degree, E-Business — SGH Warsaw School of Economics

2015 – 2019

- Exchange: Toronto Metropolitan University, Canada (Feb 2017 – Jul 2017).
- Full scholarship at The DMZ startup accelerator.

Bachelor of Engineering, Computer Science (Mobile Devices) — Polish-Japanese Academy of Information Technology

2011 – 2015

Focus Areas

Engineering leadership, Team design, Mobile platforms, Android, Kotlin, eCommerce, Fintech, Banking, Backend-For-Frontend, Software architecture, Product delivery, AI-assisted engineering, LLMs

Selected Products & Community

- **Kanarek.app** — Air-quality monitoring app with 200k+ active users and 4.8/5 rating.
- **12Hours** — Calendar-as-analog-clock Android widget; 100k users in three days after Reddit traction.
- **SGH Daily** — University app with timetable, news, and cancelled-class alerts; 10k+ users.
- **Warsaw Hacks** — 1st prize for a civic identity-verification concept using one-time codes.
- **GDG Warszawa** — Organizer and public speaker, 2013–2019, including 25+ Android talks in 2015.
- **Google Launchpad Week** — Startup mentor for mobile and technical direction.

Selected Open Source

- **WaitingDots** — Android loading-animation library built around bouncing dots. Kotlin · Android · MIT · 700+ GitHub stars
- **Nammu** — Android runtime-permission helper for permission checks, callbacks, and monitoring. Kotlin · Android · MIT · 700+ GitHub stars
- **BusWear** — EventBus support for Android Wear and mobile apps. Java · Android Wear · Apache-2.0
- **ExceptionWear** — Android Wear exception-handling library.
- **RuntimePermissionWorkshop** — Practical workshop material for Android runtime permissions.
